

It will be seen that the Fifth district leads in this important work.

No doubt there are kindergartens in towns which have no clubs, and probably many kindergartens in club towns are not reported. The government bulletin referred to above reports kindergartens at Canadian and Brackettville, which are not included in the above report. This shows the necessity of obtaining information from other than club women if we have a correct report, therefore we request any interested person who knows of the existence of a kindergarten in her school district to write Mrs. Griffith so that a full report may be made at the annual meeting of the State Federation in Galveston in November, and incorporated in the next bulletin issued by Washington.

We wish to make the president of each club responsible for this report as the corresponding secretary has so many club duties at this season of the year it may be neglected.

The committee is anxious to accomplish the following:

1. A full and correct report of the present status of the kindergarten work in the state.

2. To standardize the kindergarten work so that schools so classified may be more efficient.

3. To popularize the movement so that every child from four to six years of age may have the opportunity of being trained by a skilled teacher.

Available statistics show that only 16 of each 1000 children in Texas of proper age are receiving this training; if we accomplish the purpose mentioned it will require active work on the part of all friends. The committee suggests that each club during this year invite some one to deliver a public address on this subject in order that proper interest may be aroused.

From Mrs. Fall.

Dear Friends of the Federation: My first message to you is one of gratitude for your prompt and enthusiastic response to the call made to the housekeepers and home-makers, for a meeting to be held the 1st day of October at 10 o'clock, to discuss the high cost of living and regulating conditions as nearly as possible. Some of the districts have reported splendid meetings and fine co-operation. I feel that our women have been called to the colors, women as well as men must do their share in bringing about the new era of prosperity, which we believe is near at hand. The home is the starting point, and when we set our house-hold in order, we have started right. Let us show the same initiative, courage, and resourcefulness that our forefathers did when they helped to establish our great Republic.

May I urge upon the club women to respond to the call of the National President, Mrs. Percy V. Pennybacker, who has asked that women help to create a demand for cotton goods. The call was made for the 1st, 15th and 31st of October. This doesn't mean that we must stop at the end of the three days in our purchases, but continue in the use of cotton goods, as far as is practical. It is useless to explain to the intelligent mind that the use of cotton does not mean that women must wrap themselves in cotton goods exclusively, to discard silk forever and a day, nor does it mean that we shall become faddists, but it does mean for us to grasp the situation, and understand what the general use of cotton goods will mean to the South, if women help create a demand for cotton fabrics. It is right that any section or State should use to the greatest degree possible, its own products, both for its subsistence, and in its factories, so that when products are put upon the market, it dispenses with the fruits of its labor, as nearly as possible in all instances in the form of a finished product, thereby husbanding its resources to the fullest extent. For example, we are importing and using jute to cover our cotton bales when they could be better protected by covering them with the product made from the low grade cotton itself. However, this is not in the province of woman to regulate, but she has a defined work in popularizing cotton goods and in consuming cotton materials. War is international in its effects. Our business interests must re-adjust themselves to the suspension of commercial and financial relations with the great European nations, and the time has come when the people of Texas should band together for the purpose of using Texas products wherever possible, develop our resources within our borders.

America is the greatest nation at peace today, and on the 4th of October observed "Peace Day" with prayer, but let us continue with our prayers for peace until all the inhabitants of the earth shall be at peace with one another, and each contributing to the others' good.

Let me urge upon the presidents of districts and chairmen of committees to send any club data, or any reports that they wish disseminated over the state to other club women, to Miss Debra Lamar West, state chairman of press, Waco, Texas.

The date for our State convention is drawing near. Time and distance make it necessary for the Federation to take up its immediate work through its defined chairman, in order to obtain the best possible results.

Mrs. H. P. Robbins of Cleburne, recording secretary, has sent out a copy to each club president of the constitutional revision, which was endorsed by the executive board which met in Tyler, April 14th. Club presidents will please have same read and discussed, no delegation will be prepared to vote on same at the Galveston convention.

Mrs. Percy V. Pennybacker, National President, General Federation of Women's Clubs, will be present at the convention. Other state presidents have accepted invitations to be present.

I wish to thank the following clubs for their year books: The Woman's Party Club, Morgan; Woman's Self-

CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

LOOK, MOTHER! IF TONGUE IS
COATED GIVE "CALIFORNIA
SYRUP OF FIGS."

Every mother realizes after giving her children "California Syrup of Figs," that this is the ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach-sour, look at the tongue, mother! If coated, give a tea-spoonful of this harmless "fruit laxative," and in a few hours all the foul-constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again.

When it comes, has stomach-ache, diarrhea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a tea-spoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies printed on the bottle. Beware of counterfeits sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company." Advertisement

Culture Club, Goldthwaite; The Hyatt Club, Farmersville; Woman's Club, Marshall; The First Industrial Art Club, Cisco; The Athenian Club, Whitesboro; Hyperion Club, Big Springs; Women's Ruskin Club, Dallas; Ariat Club, Denton; Woman's Wednesday Club, Kemp; The Standard Club, Van Alstyne; Hyde Park Reading Club Austin; The Woman's Shakespeare Club, Dallas; The Persian Club, Amarillo; The Two and Twenty Club, Stamford; Woman's Thursday Club, Dublin. The following year books from State presidents have been received: Arkansas Federation of Women's Clubs, The North Carolina Federation of Women's Clubs, The California Federation of Women's Clubs. Sincerely yours,

MRS. HENRY R. FALLS,
President Texas Federation of Women's Clubs.

The Knights of Columbus meet in their hall every second and fourth Tuesday of the month at 8:00 p. m.

L. B. S. A.

Subject: The increase of knowledge, inventions and the many blessings God is bestowing upon all mankind today. Are these things drawing us nations or individuals closer to God or more into evolution.

Sunday 2:00 p. m. at hall, 411 Beaufort street.

All are invited to study with us.

SCRIPTURE

Job 5:17-24.

Behold, happy is the man whom God correcteth; therefore despise not thou the chastening of the Almighty.

For he maketh sore, and bindeth up his wounds, and his hands make whole.

He shall deliver thee in six troublous years, in seven there shall no evil touch thee.

In famine he shall redeem thee from death; and in war from the power of the sword.

Thou shalt be rid from the scourge of the tongue; neither shall thou be afraid of the beasts of the earth.

For thou shalt be in league with the stones of the field, and the beasts of the field shall be at peace with thee.

And then shalt know that thy tabernacle shall be in peace; and thou shalt make thy habitation, and shall not sin.

CIVILIZATION MARCHES FAST IN PHILIPPINE POSSESSIONS

PROSPERITY IN COMMERCE AND FINANCE NOTED DURING LAST DECADE

W. B. S. A.

WASHINGTON, D. C., Oct. 18.—Another year of American guardianship in the Philippines, Puerto Rico and the Dominican Republic was summarized today in the annual report of the Bureau of Insular Affairs. Columns of figures tell the story of civilization's march in the tropics of the Far East and the West Indies.

WACO—"Splitting the Whistle" will soon be a thing of the past in this city, as the city commission has passed an ordinance which will prevent the blowing of locomotive or factory whistles within the city limits. Waco is the first Texas city to inaugurate such a reform.

HEREFORD—The first cutting of alfalfa is in progress here and the product is averaging a ton or more to the acre. Four more cuttings will be produced from the one planting and it is estimated that farmers will average
